HERE AT ROOT DOWN, we work with quality producers and passionate, inspiring individuals to create a beverage list that complements both our food philosophy and your thirst.

Our belief is that beverages can enhance a dining experience, whether it be through biodynamically farmed wines, locally brewed beers, seasonally inspired cocktails or creative and healthy non-alcoholic mocktails.

These selections, whenever possible, are brought to you from local producers that meet and exceed our standard of value and quality. In addition, we are not afraid to look a little further geographically in order to bring in the world's best beers, spirits and wines that share our commitment to quality and the environment.

Root Down Wine Director, Al Trout
